

African Christian Alliance - Afrikaner Christen Alliansie. (ACA)

BELIEVE IN GOD, BELIEVE IN YOUR PEOPLE, BELIEVE IN YOURSELF AND CREATE YOUR OWN FUTURE – PRAY AS THOUGH WORK DOES NOT HELP, WORK AS THOUGH PRAYER DOES NOT HELP – THE STRUGGLE CONTINUES – LIFE IS A STRUGGLE – STRUGGLE IS LIFE. THE NATION THAT DESIRES LIFE, WILL FIGHT FOR IT – THOSE WHO ARE WILLING TO FIGHT FOR IT, SHALL LIVE. THERE ARE WINNERS AND POTENTIAL WINNERS – BELIEVE AND TRUST.

MANIFESTO

Preamble:

Our hope lies in God Almighty and we declare that the ACA commits itself to install a God fearing leadership. We submit to the authority of the Bible and our decisions will be based on the Bible principles.

(1Sam 8:10–18) (Romans 13:1) (Proverbs 8:15) (Hebrews 10:24) (Matthew 22:21) (Matthew 28:19-20) (Luke 22:25-26) (Peter 2:13-14) (2 Chronicles 7:14)

a) The ACA is coupled to all Southern African Nations and their languages who are in agreement with the ACA and its aspirations.
b) The ACA is in alliance with all Christian Churches and several cultural groups in Southern Africa.
c) The MAIN purpose, aspiration, approach and value system of the ACA in a continuously changing climate is to make use of ALL the available options to obtain constitutional freedom and political self determination for all South Africans, with a contented, free and independent South African nation. The approach of the ACA is dynamic, co-operative and integrated, with a value system based on high, ethical religious norms.

CHANGE FOR THE GOOD.

The world keeps on changing, which makes it necessary for us to change in order for us to survive in our environment. It's not too late change our course. We can still make a huge, huge difference.

As South Africans many of us need to change - change for the Better and the Good. Repent, because if you are moving in the wrong direction, you urgently need to make a 180° u-turn. Yes, together we can work towards a better future. Let's all take hands and stand together as South African Christians. We'll only be able to build a positive and better future for ourselves and our children, provided we can unite and stand together. The only way we can progress will be when we measure our progress by the Word and Will of God.

OUR VALUES

- We are determined to never compromise on the Christian, moral values of the ACA.

- The ACA believes that all the people in South Africa can live life to the fullest, without any poverty and crime and with a good health system for everyone. We envisage free schooling for our children up to Grade 12 or to the age of 18 years.

The family is the cornerstone of the nation. The ACA will install more support systems to assist any family in need. In order for us to build a nation we are proud of we need every father, mother and child to believe in the future. Marriage is a sacrament instituted by God, as a covenant relationship between a Man and a Woman. We oppose the demands and rights of homosexual and lesbian groups to recognise homosexual "marriages" and adoption of children. Christ Jesus died on the cross for forgiveness for all of us. God is there for everyone. You have a choice to decide whether you are ready to reach out to Him. Are you ready?

- Elderly people are a nation's treasure. The ACA will commit to increasing the monthly welfare amount for elderly people without an income.

EDUCATION

Children have a right to education, recreational facilities, adequate nutrition, proper shelter, peace and good health. To flourish and grow and to reach their full potential, children need an environment in which they can play and learn, explore and laugh, build friendships and be loved and cared for.
There is a gap between the middle-class public schools and the poorer schools in certain areas. Our children are frustrated by the education system and it has been found that South Africa has one of the worst educational systems in the world.
It is our parental right to decide the religious direction of education, the cultural context and the chosen language of instruction of a child. The ACA's policy is to achieve an educated society nurturing a citizenship equipped with the tools to become proficient in adding value to their land. The ACA education system demands a rigorous scientific curriculum that is Christian based, with highly educated teachers, with the right of parents to advise on their children's education. The ACA will also require all schools whether private or public (state), to exercise high educational standards to offer each child the opportunity of a good education irrespective of school of choice - including home Schooling. Sex education is the responsibility of parents. As such, parents should also have authority concerning the appointment of teachers.

The ACA will-

- Concentrate on retaining skilled and experienced teachers through better compensation on the basis of merit, not quotas or political alignment.
- Prioritise access to early childhood development.
- Finance schools through State resources and focus on basic skills of reading, writing and numeracy, strengthened by school governing bodies.
- Provide free education for all learners until Grade 12 or until the age of 18 years.
- Provide one education plan for all schools in South Africa, with the same exams for all learners at year-end.
- Ensure that examinations conform to an acceptable national and international standard.
- Ensure that school inspectors are re-instated to monitor the standard of teaching.
- Re-open and equip training colleges and promote teaching as a profession.
- Re-instate special schools to provide education for certain types of disability. (Grade R)
- Empower educators to deal with undisciplined and disruptive children through inter alia, corporal correction.
- Introduce diversion programmes for youth at risk, taking them out of their damaging home environments and allowing them to learn valuable skills.
- Introduce dedicated remedial schools for disruptive learners.
- Remove gangsterism, weapons, drugs and alcohol from schools.

JOB CREATION AND THE ECONOMY

Protection of job opportunities is of critical importance. Illegal immigrants deprive many South Africans of job opportunities. Strict deportation actions to future designated refugee camps situated on the South African borders have to be implemented, in conjunction with, and overseen by International Peace Corps and Health Care Services.

(Matt 6:24) (Matt 6:33-34) (Hos 4:6) (1 Tim 5:8) (1 Tim 6:10) (Isaiah 3:21-22) (Isaiah 59:12) (Ps 66.18) (Mal 3:8-12) (Prov 3:9-10) (Gal 6:7-8) (Luke 6:37-38) (2 Cor 9:7) (Deut 16:16-17) (Matt 5:23-24) (Mark 12:42-43) (Matt 19:21) (Mark 10:21) (Eph 4:28) (James 4:2-3) (Matt 5:11) (Luke 11:9-13) (Luke 16:10-13) (Prov 3:5-6) (Heb 11:6) (Jer 9:23-24) (Prov 3:5-6) (Prov 12:9) (Prov 13:7) (Prov 22-7) (Rom 13:8) (James 4:7) (Gen 22:12) (Gal 6:7-8) (Rom 13:8) (Isaiah 5:13) (Heb 5:14) (Tit 1:7-9) (1Cor 4:1) (1 Pet 4:10) (Luke 12:42) (Luke 16:1) (Rom 16:23) (Gal 4:1-2) (Mat 20.8) (Mat 25:14) (Mat 25:21) (Mat 25:26-30) (Ps 50:10-12) (Hag 2:8) (Joh 10:10) (Mat 7:11) (Mat 7:11) (Ps 35:27) (Ps 73:3) (Eph 5:17) (2 Tim 3:16-17) (Rom 1:20) (Gen 1:11) (Gal 6:7) (Ps 126:5-6) (Prov 11:18) (Isaiah 32:20) (Hos 10:12) (Gal 7:8) (Job 4:8) (Prov 6:12-15) (Prov 16.28) (Prov 22:8) (Hos 8:7) (Gal 6:8) (Jer 12:13) (Prov 18:20) (Prov 18:21) (Phil 4:6) (Matt 6:31-33) (Prov 10:22) (Prov 12:14) (1 Sam 15:22) (Mark 10:29-30) (Matt 13:8) (Gen 4:12) (Deut 28:18) (Lev 26:14-16) (Micah 6:13-15) (Deut 28:38) (Gen 8:22) (Gal 6:9) (Mark 4:28-29) (Rev 14:15) (Prov 3:9-10) (Ex 20:6) (John 14:15) (Gen 14:20) (Gen 28:22) (Lev 27:30) (Mal 3:10) (Matt 23:23) (Heb 7:8-22) (1 Cor 16:2) (Matt 22:21) (2 Cor 9:6) (2 Cor 9:7) (2 Cor 8:12) (2 Cor 9:10-11) (Matt 5:23-24) (1 Cor 13:3) (Deut 12:6) (2 Chron 31:12) (Ex 22:22) (Deut 14:29) (Deut 24:17, 19-21) (Deut 26:12) (Deut 27:19) (Isaiah 1:17) (Jer 22:3) (Zech 7:10) (Mal 3:5) (Prov 29.7) (Prov 29:14) (Luke 6:20) (Luke 19:8-9) (Joh 13:29) (2 Cor 9:7-9) (James 2:5) and (Ps 41:2-4)

All the Bible verses above teach and help us to understand the way we are supposed to use our income. If we as a nation start to correct our expenditure at home, the rest will follow and our economic status will change accordingly.

We need to become a nation with an 'added value' economy instead of one being dominated by the raw material and retail industries. It is no longer acceptable that we export gold and import jewellery. It is also economic foolishness that we export iron and import panels for our vehicles.

We have the resources and we have the people. It is government's responsibility to ensure that skills are in place to use the wealth of our nation and the ACA commits to doing that.

THE SMALL BUSINESSMAN /WOMAN

Special attention should be given to the needs of small businessmen who at this stage are responsible for the majority of job opportunities. They should be encouraged with programmes specially designed for small businesses. The refining of precious metals and minerals *before* being exported should be encouraged in the strongest terms. Inflation in excess of 7.5% has to be curtailed by means of strict price control. Interest rates need to be controlled. Monopolies have to be strictly controlled and minimized in favour of fair trade. The national currency has to be rigidly protected against world market fluctuations. Tax payments should be levied on an equal sliding scale to affect all groups of people equally within South Africa. Street vendors need to be properly registered and monitored in order for them to be taxed, similar to all other South Africans.

SOUTH AFRICA SASOL PETROL AND OTHER PRODUCTS:

It must be sold at a price less than the other overseas products. Please!!! Support (as far as possible) all good South African made products, for more job creation and protection of our Exchange rate. Strive to build our own South African cars! Export products as far as possible.

SAFETY AND SECURITY

In order for safety and security to be properly enforced, sufficiently trained security forces have to be employed. In the absence of such control, an unwanted alternative could develop where people take the law into their own hands, with the potential of equally unwanted forming of self-appointed vigilante groups. A strong, loyal, well-paid and trained, honest and helpful police service is of cardinal importance. A very urgent investigation into the current small-scale war being waged against the farming community, on their own farms, is not only called for, but long overdue. Enforced jail sentences where convicts *have* to perform genuine, hard labour under strict supervision, will almost certainly act as a strong deterrent, instead of allowing prisoners to sit in cells whiling away their days. Prisoners eligible for enforced hard labour would typically those convicted of the most serious offences like murder, rape, assault causing grievous bodily harm and hi-jacking.

GOVERNMENT INSTITUTIONS AND ASSETS

State assets are never to be sold – especially not to foreign entities. In instances where because of unavoidable circumstances such action has to be taken, any money thus generated should be channelled towards housing and education, to the benefit of all currently disadvantaged, with accompanying job creation.

HOUSING

The African Christian Alliance – Afrikaner Christen Alliansie (ACA) respects property ownership and is committed to extend this to as many citizens as possible. The ACA will incrementally provide access to adequate housing for all.

The ACA will:

- Promote the development of affordable housing through the provision of community-owned self-help schemes: (Helpmekaar Schemes)
- Apply the use of cost-effective technology to provide better quality housing.
- Encourage the development of sustainable housing communities with amenities and services such as health, education, socio-economic and recreational facilities.
- Focus on rural development to address the problems resulting in urban migration through incentives for industries to relocate to rural areas, and
- Review and establish a comprehensive data-base of persons on waiting lists for housing.
- Present Hostels to be upgraded and new Hostels to be built for young single, working persons.
- New Family Hostels / flats to be built.

SCARCITY OF WATER

Easy access to the sea is of vital importance. Water can be desalinated and pumped inland. Large areas of agricultural land can be reached and irrigated by means of overhead water tunnelling of the type used in Israel. In addition, work and employment opportunities will be an inevitable outflow of such operations. Wealth will have to be created all over again through diligent work, effective organisation of human resources and innovative application of natural resources. Purified sewage and reclaimed water can be used by for instance, by the Mining and other industries. Technology exists where in extreme cases the already recycled water can be further purified to the extent where it is suitable for domestic use and human consumption. During the rainy season, households should be encouraged to collect water flowing down by for instance, roof downpipes. Through the use of containers and storage tanks, rain water which would normally go to waste, can be collected and used again, at least for irrigation etc. This method would also relieve the burden on Municipalities and will of course, save money.

HEALTH

A well paid and trained Medical Corps, with well equipped hospitals is critically important, and should include Government, as well Private institutions.

Aids and TB.

Government must fund HIV education programmes provide mixed messages about sex that are counter-productive. (Don't Condomise but Moralise) The ACA will intensify the fight against HIV/Aids by declaring it a notifiable disease and ensuring routine testing. The reporting of the above mentioned patients should be made compulsory in order for it to be identified and so that it can be dealt with. In identified, sufficiently serious cases provision should be made for patients to be isolated.

The ACA will ensure that primary and secondary healthcare will be fully accessible and of an excellent standard.

The ACA will:

- Ensure the provision of clean water and proper sanitation and that basic health and hygiene is taught from primary school level upwards.
- Extend the roll-out of antiretroviral treatment and the prevention of mother to child transmission programmes.
- Prioritise public awareness campaigns to promote abstinence and fidelity
- Focus on efforts to contain and eliminate tuberculosis (TB) with a particular emphasis on extreme and multi-drug resistant TB
- Improve public hospital services and ensure better equipped and property remunerated medical staff
- By facilitating public-private partnerships ensure that hospital revitalisation is a top priority
- Intervene to significantly reduce maternal and child mortality, and
- Provide access to medical aid through a national health scheme which will broaden access to health services.

Our physical wellbeing is largely dependent on what we eat, drink and breathe. The ACA therefore supports alternative, renewable sources of energy, adherence to global environmental standards and clean technology.

Abortion:

Abortion is only acceptable in cases where medical evidence of sufficient reason for an abortion has been properly identified and diagnosed, and where the very life of the mother is being threatened by the pregnancy. The only other exception to the rule should be in cases of rape where the necessary charges have been reported to the SAPS and are being investigated. Unless the aforementioned stipulations have been observed and adhered to, the mother as well as the person who performed the operation should be charged with murder. (All other abortions will be de-legalised and treated as a crime equal to murder under the justice system)

Rape Victims would be required to report the cases to the SAPS within forty eight (48) hours, and where official cases have been opened and are being investigated, are to have entirely free access to the best medication and treatment available, which would include councillors and medical personnel who are the best in their respective fields and who can treat them with the utmost respect, dignity and empathy.

Disabilities: The ACA supports the rights of persons with disabilities and should be given full, accurate information about the public services they are entitled to receive, inclusive of good communication, e.g. Braille, large print, and auto-tape services. Provincial departments should strive to ensure that at least 2% of their workforce consists of people with disabilities.

CHRISTIANITY AND THE FREEDOM TO WORSHIP

Christianity and the freedom to worship can be dealt with to counter the attempts at consolidation of religions and beliefs, and the creation of 'inter-religions' and absolute acknowledgement of the HOLY TRINITY. (Separate subject.)

NATIONAL LEADER – PRESIDENT (ACA)
Your National and Provincial Government
For the Future!

Petrus Johannes Van Der Westhuizen (Pieter)

DEFEND YOUR BIRTHRIGHT!

Local -,Provincial – and National Elections.

Next South Africa Local Government Election possible in March - May in 2011.

THE ACA IS A REGISTERED POLITICAL PARTY COMMITTED TO DEFENDING YOU AND YOUR DESCENDANTS.

- With a mission to eliminate corruption
- To actively fight poverty and unemployment
- To fight the maltreatment and rape of women, children and the elderly.
- Exclusive private residential areas, properly protected, with ONE main entrance.
- Basic paid Services (Water, electricity and Refuse removal) where services are made available to all residents at affordable rates

The following points need to be addressed as a matter of urgency:

- Pensioners who not only are being forgotten, but the urgent need to have liveable pension schemes to be introduced.
- Inordinately high property taxes to be revised.
- The outsourcing of delivery of services to contractors who are able to perform services of the highest quality at the most reasonable prices, irrespective of who the contractors are.
- Stricter enforcement to ensure better efficiency with the collection of outstanding taxes and service fees owed to local government.
- Enforced respect for right of ownership of fixed property in urban as well as rural areas. (See also proposed law pertaining to local rates and taxes.)
- Regular feedback available to all interested constituents regarding both to issues and problems that have and have not been resolved.
- To put you as the voter first in all instances, where possible.
- A special word of praise and thanks to the Lord for His guidance
- Thank you sincerely to all who have given, and still give me, Petrus and the ACA your continued support and trust. Most of all, thank you for your valuable vote. The challenges are becoming stronger, and therefore your vote is of cardinal importance.
- Trust / Believe / Pray and vote for the ACA
- Remember: The ACA fights for your rights.

AFRICAN CHRISTIAN ALLIANCE

AFRIKANER CHRISTEN ALLIANSIE

(A C A)

- **Our Logo Signifies:**

- **Red Cross** – Jesus Christ sacrifices His blood at the Cross to cleanse us of our sins.
- **White Cross** – Signifies the cleansing of our sins if we accept Him as our Personal Lord and Saviour. Similarly, many of our forefathers and their families were forced to sacrifice their lives in the pursuit of freedom.
- **Ensign with pole on the right** – Flag of the original Crusaders. Upwind battle against Godless oppressive government
- **Black Background** – The battle is not only against flesh and blood, but indeed, against the Forces of Darkness. Examples are the Might of Money, the Free Masons, the Broederbond, and the dark forces behind them, driving them. Satanism and other dark / black known, as well as unknown forces.

Leader: GOD – THE HOLY TRINITY

PETRUS JOHANNES VAN DER WESTHUIZEN
